CAREER OBJECTIVE

Motivated B.Tech IoT student seeking an internship or entry-level role in IoT and Web Development. Skilled in automation systems, frontend technologies, database management, and AI/ML fundamentals, with hands-on project experience and a strong drive to build innovative, real-world solutions.

EDUCATION

B.Tech in Industrial IoT (2023–2027) — Priyadarshini College of Engineering, Nagpur
Higher Secondary (2021–2023) — Major Hemant Jakate Inst. of Science & Commerce, Nagpur
Primary & Secondary Education (2009–2021) — Bishop Cotton High School, Nagpur

TECHNICAL SKILLS

Programming Languages: Python, SQL
Web Technologies: HTML, CSS, JavaScript
Frameworks & Tools: Bootstrap, Tailwind CSS, React.js (Learning), Node.js (Learning)
Database Management: MySQL
AI & Data Science: Machine Learning (Python), Data Science, Artificial Intelligence Fundamentals
Other Skills: Internet of Things (IoT), Full-Stack Web Development Basics, Data Analytics & Visualization

PROJECTS

IoT-Based Projects

- Smart Home Automation System – Controlled home appliances using IoT sensors and mobile integration.
- Smart Parking System – Designed an automatic vehicle detection and parking slot allocation system using sensors.
- Automated Tree Planting System – Developed a system that automates seed planting and watering using microcontrollers.

Frontend Development Projects

- Built multiple responsive websites using HTML, CSS, JavaScript, Bootstrap, and Tailwind CSS.
- Created modern portfolio and login pages with interactive UI/UX design.
- Currently developing full-stack projects using React.js and Node.js.

Job ATS (Applicant Tracking System) Web Application

- Designed and developed a Job ATS web application to streamline job application tracking for candidates.
- Implemented features including job listing management, application status tracking, candidate profile management, and keyword-based resume filtering.
- Built using HTML, CSS, JavaScript, and MySQL for backend data management, applying full-stack web development skills.
- Integrated search and filter functionality to match candidate profiles with job descriptions using keyword analysis.

CERTIFICATIONS

- Full-Stack Web Development Bootcamp
- Microsoft Azure AI Fundamentals
- Accenture North America – Data Analytics & Visualization Job Simulation
- TCS iON Career Edge – Young Professional

Infosys Springboard (April 2026)

- Introduction to Artificial Intelligence – Infosys Springboard (Completed: April 19, 2026)
- Explore Machine Learning using Python – Infosys Springboard (Completed: April 19, 2026)
- Python for Data Science – Infosys Springboard (Completed: April 19, 2026)

ADDITIONAL INFORMATION

- Enthusiastic learner with a deep interest in IoT, automation, web technologies, and AI/ML.
- Strong communication, leadership, and teamwork skills through participation in college forums and technical clubs.
- Always eager to explore new frameworks and build real-world, impactful projects.
